Content: Understand Risky Online Behavior	Excellent understanding of risks of sharing information	Good understanding of risks of sharing information	Misses some risks of sharing information	Misses many aspects of risks of sharing information
Written Summary	Detailed and clear point of view that includes evidence from sources and discussions	Clear point of view that includes some evidence from sources and discussions	Explanation is a little difficult to understand, but includes some evidence from sources and discussions	Explanation unclear and includes little evidence from sources and discussions

Answers will vary. However, some specific content should be included:

- *Personal vs. Private. Private information is risky to share: full name, address, telephone number, age, birthday, or school. However, sharing personal likes and dislikes is less risky.*
- *Cyberstrangers: Someone could pretend to be someone else online. You don't know the identity of someone contacting you online.*
- *Never agree to meet with someone you met online.*
- *Other content about specific items may be included.*
