

Name \_\_\_\_\_ Date \_\_\_\_\_

### Your Choice

Identify your problem that you would like to solve. It might be something like: What musical instrument should I play; where should the family go for the weekend; or what gift should I choose for my Mom's birthday? You may even decide how to use a \$25 gift certificate (to your favorite store) that you got for your Birthday. Be sure and identify your **problem**, define your **criteria**, list your **alternatives**, **evaluate** your alternatives using your criteria, and then **decide**.
